

Indoor Cabling Components

RiserNet^{XS} Tapping Box TB-DL02

Application

This re-enterable indoor closure by Draka is part of the RiserNet^{XS} Solution. Constructed as a compact, fitted and gas tight closure, it is used for branching fibers on any floor of an MDU to be fed to the customer outlet box. With interchangeable inserts for various diameters and 6 branching port options, the RiserNet^{XS} Tapping box is compatible with Draka's full line of riser cables.

The RiserNet^{XS} Solution for indoor applications has been specially designed and engineered as part of Draka's continued commitment to bring new technologies, concepts, and innovation to the FTTH marketplace. This in-building solution starts at the Building Distribution box in the form of a specially manufactured Riser Cable that is run from the demarcation point straight up through the building to the top floor. This unique Riser Cable is filled with fiber modules that are meant to be cut on the higher floors and retracted down to the lower floors where they can easily be brought directly to the customer premises.

Features	Advantages
<ul style="list-style-type: none"> • Small size with robust simple construction 	<ul style="list-style-type: none"> • Allows retracting of the fiber while protecting the opening in the cable • Easy to install in small places
<ul style="list-style-type: none"> • 6 port options with tension relief for outgoing fiber modules 	<ul style="list-style-type: none"> • Safely distributes the retracted fibers
<ul style="list-style-type: none"> • Dividable design fits securely to a variety of cable diameters using soft rubber inlay 	<ul style="list-style-type: none"> • Installs easily at any time and any place • Single product for full Draka Riser Cable portfolio • Re-enterable and reliable
<ul style="list-style-type: none"> • Protection class IP55 	<ul style="list-style-type: none"> • Meets the appropriate safety regulations for water and gas tightness

Product Range

Ordering code	Product Name	Packaging
1024849	RiserNet [®] Tapping Box TB-DL02	Per piece

Technical Specifications

Materials

Thermoplastic
Soft TPE inlay
LSZH & ROHS compliant

Dimensions

Height x Width x Depth
248 x 144 x 25 mm

Construction

Dividable parts snap together without tools, screws, or sealing gel

Soft rubber-like TPE inlay

2 Main ports (top+bottom) for the Riser Cable
(Main port = 7, 10, 12 or 14 mm diameter)

6 Exit ports for Optical Fiber Protection Tubes
(Exit ports= 5 mm diameter, angled 45°)

IP55 Rating

Value Innovation

Value Innovation is a way of looking at the world. How can we help our customers do more, save more, achieve more? Draka is a global leader in delivering advanced cable and network solutions. Focusing on the passive

elements of the network, our goal is to deliver superior network software, connectivity and cable solutions that meet your current and future network requirements, based on more bandwidth, longer life and absolute reliability.
